

# Traffic Safety Courses

Nicolet College offers different types of traffic safety courses. Our classes are only offered in-person. Group Dynamics and Multiple Offender classes are offered for those that have completed an alcohol assessment and have been referred for education. Once referred you have 72 hours to contact the College to set up your classes. [Please click here if you need to make a 72-hour contact](#) for your assessment on a Group Dynamics or Multiple Offender referral.

The College also offers a Traffic Safety Point Reduction course. This course will allow you to take a three-point reduction of demerit points from your license upon successful completion of the course. This can only be done once every three years. If you need a Failure to Yield course, you can take the Traffic Safety Point Reduction course to satisfy this requirement. This course *cannot* be used to satisfy an OWI course. If you have questions regarding the Traffic Safety Point Reduction Course, please contact 715-365-4600 or [complete this contact form](#).

## Group Dynamics

Course #: 4281840100

### Course Description:

Group Dynamics is a Wisconsin highway safety initiative aimed at assisting first-time OWI (operating while intoxicated) offenders in changing their impaired driving behavior. Students monitor their alcohol or other drug use or abstinence throughout the course and have many opportunities to self-assess their current use patterns. Students also complete a Personal Change Plan to help them avoid future problems with impaired driving.
