What You'll Learn

- Employ effective verbal and nonverbal communication skills in diverse professional and social contexts
- Demonstrate quantitative reasoning skills at the appropriate undergraduate level
- Demonstrate critical thinking skills at the appropriate undergraduate level
- Demonstrate effective use of scientific method skills in a variety of contexts at the appropriate undergraduate level
- Demonstrate an understanding of the social, cultural, political, and historical dimensions of our world at the appropriate undergraduate level
- Demonstrate a heightened awareness of our physical, chemical, and biological environment at the appropriate undergraduate level
- Demonstrate an increased responsibility for self-directed learning and personal wellness

Possible Bachelor's Degree Majors

- Fisheries/Water Resources
- Forestry
- Human Dimensions of Natural Resource Management
- Paper Science and Engineering
- Soil and Waste Resources
- Wildlife Ecology
